KING STOVE JB-500K

**KHAKI
BLACK**

Boil 500ml water in 1 minute and 15 seconds with 10,900kcal of powerful firepower

- With hard durability, you can cook safely by supporting a large and heavy pot without shaking
- The burner conversion lever can control the firepower of 1 or 5 units
- Fine height adjustment is possible up to 8 stages, so you can cook safely even in uneven floors
- Foldable support allows you to stably use cooking tools of various sizes
- Piezoelectric automatic ignition is applied, eliminating the need for unnecessary lighters and thermal devices
- It is an all-in-one liquid extraction model and can be used in a fast liquid extraction mode
- Butane gas can be used when a separate adapter is installed
- A generous EVA hard case is included to hold fuel together

Components	Body, EVA case, AA batteries	Purpose	Outdoor
Size	320x410x258mm	Ignition	Piezoelectric automatic ignition
Weight	2kg	Fuel type	Liquefied butane
Materials	Iron, Brass, Stainless steel, others		

MAIN STOVE **JB-105**

- KHAKI
- CREAM
- BLACK
- IVORY

Boil 500ml water in 2 minute and 10 seconds with 7,200kcal of powerful firepower

- Piezoelectric automatic ignition is easy to ignite by simply pressing the button
- Patented steel protector ignition needle prevents deformation damage to the ignition needle and burner head
- Equipped with gas preheating tubes, liquid extraction can be used in cold weather
- Finished with an enamel coating, it is resistant to strong firepower, corrosion, and can be used for a long time without deformation
- Strong and sufficient length of double fireproof hose makes it safe without worrying about gas leakage
- The self-adjustable folding pedestal stably wraps around cooking containers of various sizes so that you can cook without shaking
- Butane gas can be used when a separate adapter is installed
- Folding legs are easy to store, so they are portable

Components	Body, EVA case	Purpose	Outdoor
Size	260x160mm	Ignition	Piezoelectric automatic ignition
Weight	1.2kg	Fuel type	Liquefied butane
Materials	Iron, Brass, Stainless steel, others		

SUB STOVE **JB-103**

- KHAKI
- CREAM
- BLACK
- GRAY

It's small, so it's easy to carry, and it's firepowerful

- Piezoelectric automatic ignition is easy to ignite by simply pressing the button
- Patented steel protector ignition needle prevents deformation damage to the ignition needle and burner head
- Equipped with gas preheating tubes, liquid extraction can be used in cold weather
- Strong and sufficient length of double fireproof hose makes it safe without worrying about gas leakage
- The self-adjustable folding pedestal stably wraps around cooking containers of various sizes so that you can cook without shaking
- Butane gas can be used when a separate adapter is installed
- Folding legs are easy to store, so they are portable

Components	Body, EVA case	Purpose	Outdoor
Size	170x110mm	Ignition	Piezoelectric automatic ignition
Weight	520g	Fuel type	Liquefied butane
Materials	Iron, Brass, Stainless steel, others		

SUB STOVE PLUS **JB-103 Plus**

It's small, so it's easy to carry, and it's firepowerful

- Piezoelectric automatic ignition is easy to ignite by simply pressing the button
- Patented steel protector ignition needle prevents deformation damage to the ignition needle and burner head
- Equipped with gas preheating tubes, liquid extraction can be used in cold weather
- Foldable ignition switch for safe use
- The self-adjustable folding pedestal stably wraps around cooking containers of various sizes so that you can cook without shaking
- Butane gas can be used when a separate adapter is installed
- Folding legs are easy to store, so they are portable

Components	Body, EVA case	Purpose	Outdoor
Size	150x210x110mm	Ignition	Piezoelectric automatic ignition
Weight	558g	Fuel type	Liquefied butane
Materials	Iron, Brass, Stainless steel, others		

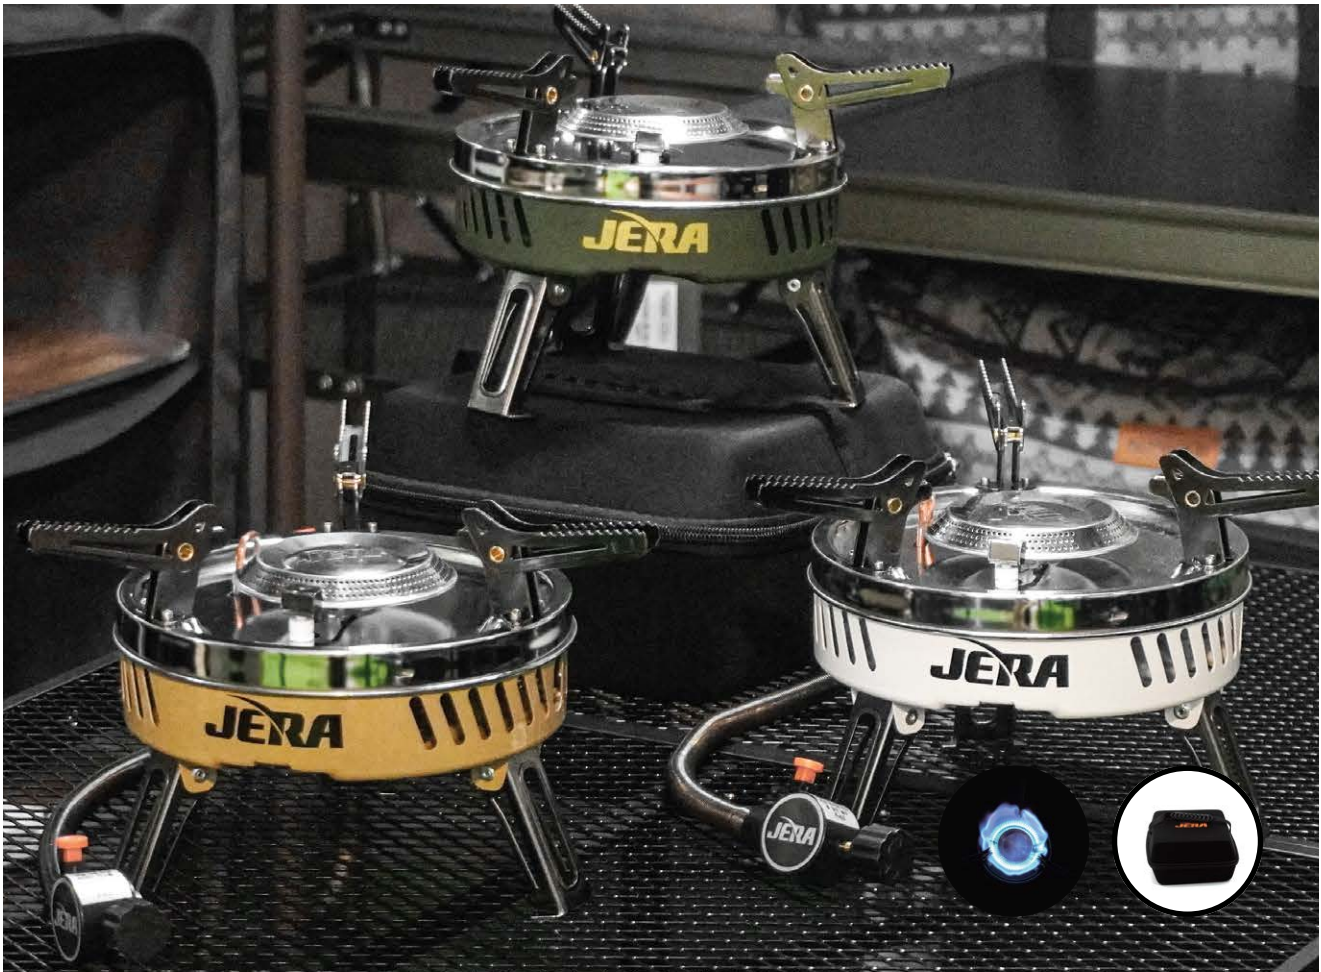

MAGIC STOVE **JB-105M**

The 11,500kcal power emanating from 5 burners, boasts the most powerful firepower among outdoor burner products

- Piezoelectric automatic ignition is applied, eliminating the need for unnecessary lighters and thermal devices
- Patented steel protector ignition needle prevents deformation damage to the ignition needle and burner head
- Equipped with gas preheating tubes, liquid extraction can be used in cold weather
- The burner conversion lever can control the firepower of 1 or 5 units
- Foldable support allows you to stably use cooking tools of various sizes
- It is an all-in-one liquid extraction model and can be used in a fast liquid extraction mode
- Butane gas can be used when a separate adapter is installed
- Teflon coating is resistant to contamination and corrosion

Components	Body, EVA case	Purpose	Outdoor
Size	260x260x160mm	Ignition	Piezoelectric automatic ignition
Weight	1.8kg	Fuel type	Liquefied butane
Materials	Iron, Brass, Stainless steel, others		

AURORA STOVE **JB-501**

- KHAKI**
- TAN**
- WHITE**

It has a powerful firepower of 6,480kcal for quick cooking

- Piezoelectric automatic ignition is easy to ignite by simply pressing the button
- Patented steel protector ignition needle prevents deformation damage to the ignition needle and burner head
- Equipped with gas preheating tubes, liquid extraction can be used in cold weather
- Strong and sufficient length of double fireproof hose makes it safe without worrying about gas leakage
- The self-adjustable folding pedestal stably wraps around cooking containers of various sizes so that you can cook without shaking
- Butane gas can be used when a separate adapter is installed
- Folding legs are easy to store, so they are portable

Components	Body, EVA case	Purpose	Outdoor
Size	260x160mm	Ignition	Piezoelectric automatic ignition
Weight	1.2kg	Fuel type	Liquefied butane
Materials	Iron, Brass, Stainless steel, others		

BLAZE STOVE JB-201

- KHAKI
- CREAM
- BLACK

It's small, so it's easy to carry, and it's firepowerful

- Piezoelectric automatic ignition is easy to ignite by simply pressing the button
- Patented steel protector ignition needle prevents deformation damage to the ignition needle and burner head
- Equipped with gas preheating tubes, liquid extraction can be used in cold weather
- Strong and sufficient length of double fireproof hose makes it safe without worrying about gas leakage
- The self-adjustable folding pedestal stably wraps around cooking containers of various sizes so that you can cook without shaking
- Butane gas can be used when a separate adapter is installed
- Folding legs are easy to store, so they are portable

Components	Body, EVA case	Purpose	Outdoor
Size	170x110mm	Ignition	Piezoelectric automatic ignition
Weight	550g	Fuel type	Liquefied butane
Materials	Iron, Brass, Stainless steel, others		

POWER MINI STOVE

JB-100

It's lightweight and small, so it's easy to carry around

- It's easy to use with piezoelectric automatic ignition
- It's powerful because it's directly connected

Size	110x110x95mm	Materials	Stainless steel, Titanium, others
Weight	110g	Ignition	Piezoelectric automatic ignition
Purpose	Outdoor	Fuel type	Liquefied butane

MINI STOVE

JB-107

It's lightweight and small, so it's easy to carry around

- It's easy to use with piezoelectric automatic ignition
- It's powerful because it's directly connected

Size	90x90x80mm	Materials	Stainless steel, Titanium, others
Weight	200g	Ignition	Piezoelectric automatic ignition
Purpose	Outdoor	Fuel type	Liquefied butane

PERFECT STOVE

JB-707

It's lightweight and small, so it's easy to carry around

- It's easy to use with piezoelectric automatic ignition
- It's powerful because it's directly connected

Size	124x124x90mm	Materials	Stainless steel, Titanium, others
Weight	220g	Ignition	Piezoelectric automatic ignition
Purpose	Outdoor	Fuel type	Liquefied butane

PERFECT HOSE STOVE

JB-650

It's lightweight and small, so it's easy to carry around

- It's easy to use with piezoelectric automatic ignition
- It's powerful because it's directly connected
- Made of fireproof hose, it is safer when replacing gas

Size	124x124x90mm	Materials	Stainless steel, Titanium, others
Weight	320g	Ignition	Piezoelectric automatic ignition
Purpose	Outdoor	Fuel type	Liquefied butane

HOSE TWIN STOVE

JB-202

It's safe because it's hose-connected when you replace the gas

- There is a gas preheating tube in cold weather, so you can use it effectively
- Adapter must be installed when butane gas is used

Size	500x200x260mm	Materials	Stainless steel, Iron, Brass, others
Weight	3.2kg	Ignition	Piezoelectric automatic ignition
Purpose	Outdoor	Fuel type	Liquefied butane

ROCKET TWIN STOVE

JB-303T

It is made of torch-type three-hole firework, so it has strong firepower

- There is a gas preheating tube in cold weather, so you can use it effectively
- Adapter must be installed when butane gas is used

Size	500x200x260mm	Materials	Stainless steel, Iron, Brass, others
Weight	3kg	Ignition	Piezoelectric automatic ignition
Purpose	Outdoor	Fuel type	Liquefied butane

IGT STOVE

New arrival

Can be used in two ways - desktop or built-in

- Powerful firepower of 7500W
- One-touch ignition makes it convenient to use

Size	360x250x95mm	Materials	Stainless steel, Iron, Brass, others
Weight	1.7kg	Ignition	Piezoelectric automatic ignition
Purpose	Outdoor	Fuel type	Liquefied butane

CARRIER STOVE

JB-300

The all-in-one burner is quick to use and convenient to carry

- Automatic continuous ignition is easy to ignite
- Equipped with gas preheating tubes, liquefaction can be used even in cold weather

Size	300x200x70mm	Materials	Stainless steel, Iron, Brass, others
Weight	1.5kg	Ignition	Piezoelectric automatic ignition
Purpose	Outdoor	Fuel type	Liquefied butane

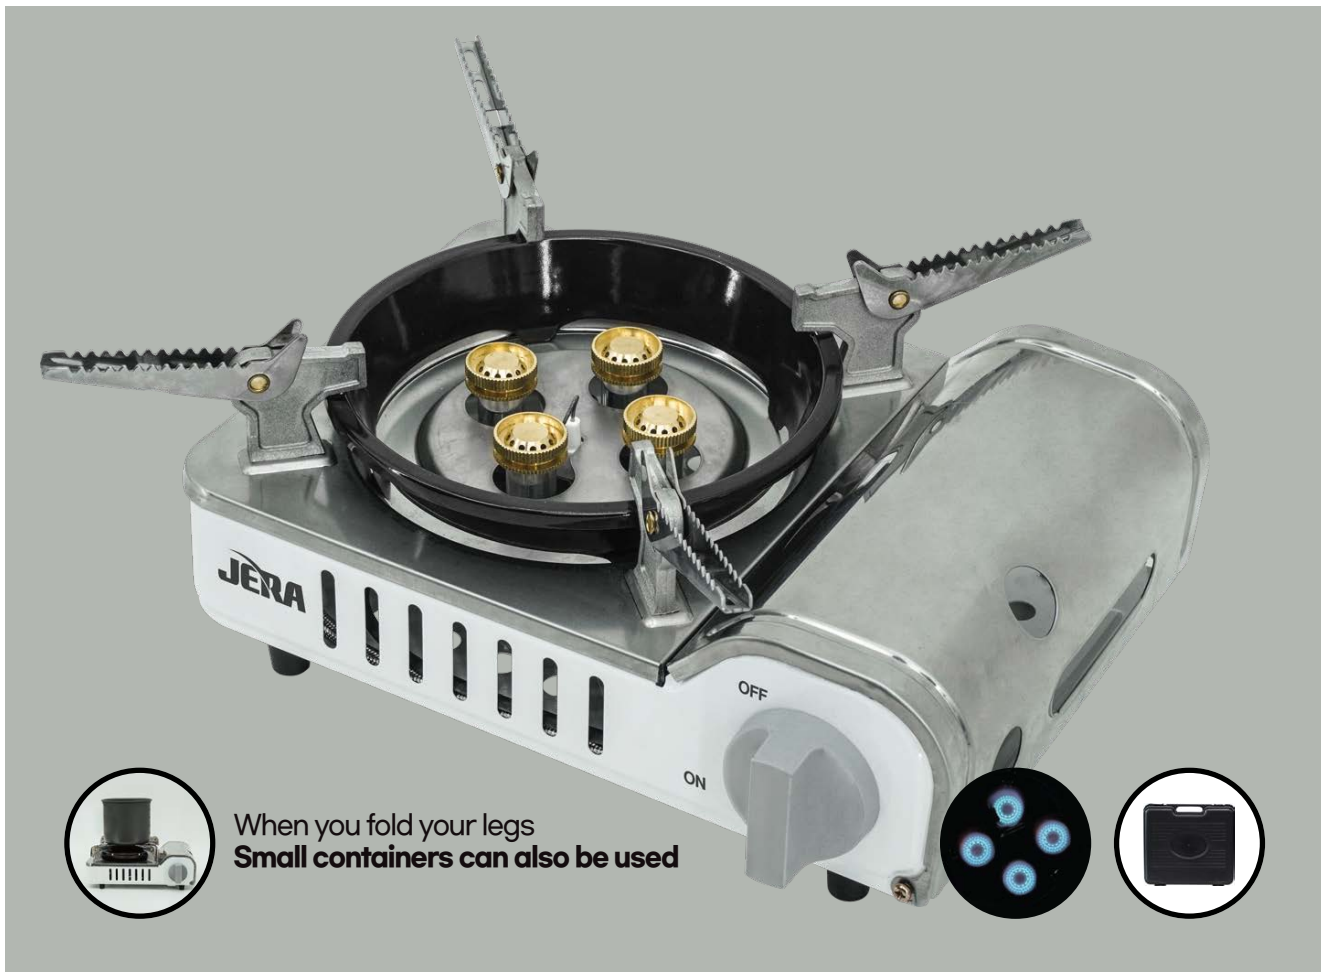

CARRIER TWIN STOVE

JB-301T

The all-in-one burner is quick to use and convenient to carry

- Automatic continuous ignition is easy to ignite
- Equipped with gas preheating tubes, liquefaction can be used even in cold weather
- It can be used in various ways as two types of firework

Size	530x300x70mm	Materials	Stainless steel, Iron, Brass, others
Weight	3.4kg	Ignition	Piezoelectric automatic ignition
Purpose	Outdoor	Fuel type	Liquefied butane

MINI POWER STOVE New arrival

Powerful firepower emitted from four burners can dramatically shorten cooking time compared to conventional portable gas burners

- The windshield design allows you to use it in windy environments
- It's small and light, so it's convenient to carry around, so it's great for camping
- It is designed to be vertically easy to load, making it easy to stack multiple units in the business
- It's more convenient because the gas is automatically desorbed
- Detachable stainless steel top for easy cleaning

Components	Body, Hard case	Purpose	Outdoor, Cooking
Size	256x180x100mm	Ignition	Piezoelectric automatic ignition
Weight	1.2kg	Fuel type	Liquefied butane
Materials	Iron, Brass, Stainless steel, others		

When you fold your legs
Small containers can also be used

MINI TORNADO STOVE **New arrival**

It is a gas-efficient internal combustion whirlwind where flames gently gather in the center

- The windshield design allows you to use it in windy environments
- It's small and light, so it's convenient to carry around, so it's great for camping
- It is designed to be vertically easy to load, making it easy to stack multiple units in the business
- It's more convenient because the gas is automatically desorbed
- Detachable stainless steel top for easy cleaning

Components	Body, Hard case	Purpose	Outdoor, Cooking
Size	256x180x100mm	Ignition	Piezoelectric automatic ignition
Weight	1.2kg	Fuel type	Liquefied butane
Materials	Iron, Brass, Stainless steel, others		

SQUARE STOVE

JB-730

There is a gas preheater even in cold weather, so you can use it effectively

- It's more convenient because the gas is automatically desorbed
- Detachable stainless steel top for easy cleaning

Size	320x250x95mm	Materials	Stainless steel, Iron, others
Weight	1.4kg	Ignition	Piezoelectric automatic ignition
Purpose	Outdoor	Fuel type	Liquefied butane

TORNADO STOVE

JB-740

It is a gas-efficient internal combustion whirlwind that gathers in the center

- It's more convenient because the gas is automatically desorbed
- Detachable stainless steel top for easy cleaning

Size	320x250x95mm	Materials	Stainless steel, Iron, others
Weight	1.5kg	Ignition	Piezoelectric automatic ignition
Purpose	Outdoor	Fuel type	Liquefied butane

WIND SHIELD T. STOVE

JB-750

It is also equipped with a windshield, so it is suitable for outdoor use

- It is a gas-efficient internal combustion whirlwind that gathers in the center
- There is a gas preheater even in cold weather, so you can use it effectively

Size	320x280x95mm	Materials	Stainless steel, Iron, others
Weight	2.1kg	Ignition	Piezoelectric automatic ignition
Purpose	Outdoor	Fuel type	Liquefied butane

MULTI ADAPTER JB-304

It is a versatile adapter that can be used by connecting up to 4 butane gases and fastening them to the isogas burner

- Tightly coupled, there is no risk of gas leaks
- It works without having to combine four gases
- You can use it in various ways through hoses or various adapters

Components	Body, EVA case	Purpose	Outdoor
Size	97x97mm	Fuel type	Liquefied butane
Weight	270g	Materials	Iron, Brass, Aluminium, others

SPINNABLE ADAPTER

JB-303

It is an adapter that can install normal butane gas in an isobutane stove

- Adapter legs rotate and support for safe use

Size	55x60x28mm	Materials	ABS, Iron, others
Weight	80g	For use	Normal butane ▶ Isobutane
Purpose	Outdoor	Fuel type	Liquefied butane

ISOBUTANE HOSE ADAPTER

JB-360

It is made of a stainless steel braided hose on a fluorine hose for safe use

- Legs are wider and lower in height, making it stable
- There is a distance between the main body and the gas, so you can use it safely and conveniently

Size	150x150x60mm	Materials	ABS, Stainless steel, Brass, others
Weight	100g	For use	Isobutane ▶ Isobutane
Purpose	Outdoor	Fuel type	Liquefied butane

BUTANE HOSE ADAPTER

JB-370

It is made of a stainless steel braided hose on a fluorine hose for safe use

- Legs are wider and lower in height, making it stable
- There is a distance between the main body and the gas, so you can use it safely and conveniently

Size	150x150x60mm	Materials	ABS, Stainless steel, Brass, others
Weight	100g	For use	Normal butane ▶ Isobutane
Purpose	Outdoor	Fuel type	Liquefied butane

BURNER TABLE

JB-805

It's a table that you can use when cooking outdoors
 · Its JB-105 main stove, JB-501 aurora stove, and other burners with an inner diameter of 170mm are also available

Size	400x400x250mm	Materials	Stainless steel, Iron
Weight	1.4kg	Purpose	Outdoor

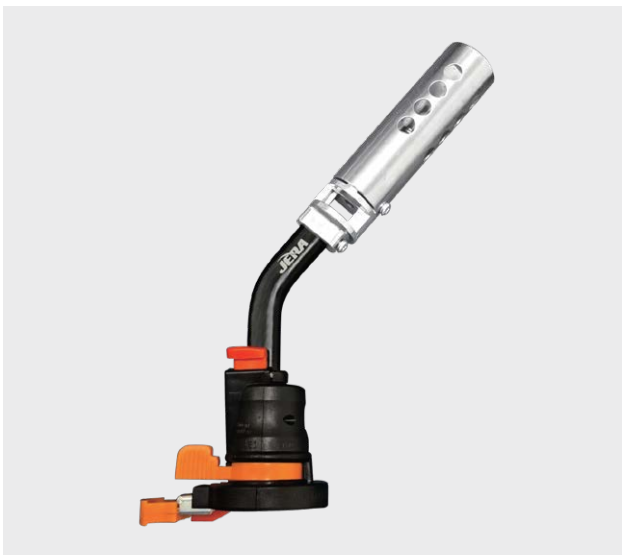

BURNER TABLE

JB-808

It's a table that you can use when cooking outdoors
 · Its JB-103 sub stove, JB-201 blaze stove, and other burners with an inner diameter of 110mm are also available

Size	300x250x200mm	Materials	Stainless steel, Iron
Weight	1.4kg	Purpose	Outdoor

KING TORCH

JB-503

2WAY auto-ignition enables ignition in two ways:
 button-type ignition and lever-type rapid ignition
 · It boasts the best firepower with a powerful turbo flame length of 30cm

Size	230x230x45mm	Materials	ABS, Stainless steel, others
Weight	150g	Ignition	Piezoelectric automatic ignition
Purpose	Outdoor, Cooking	Fuel type	Liquefied butane

AUTO TORCH

JB-505

Easy to use with a simple and safe one-touch ignition
 · It maintains a stable and clean flame

Size	150x150x60mm	Materials	ABS, Stainless steel, others
Weight	100g	Ignition	Piezoelectric automatic ignition
Purpose	Outdoo, Cooking	Fuel type	Liquefied butane

KINGSTAR TORCH

JB-506

2WAY auto-ignition enables ignition in two ways:

button-type ignition and lever-type rapid ignition

- It boasts the best firepower with a powerful turbo flame length of 30cm

- Gas preheating tubes can be used even in cold weather

Size	280x90mm	Materials	ABS, Stainless steel, others
Weight	240g	Ignition	Piezoelectric automatic ignition
Purpose	Outdoor, Cooking	Fuel type	Liquefied butane

2WAY AUTO TORCH

JB-502

2WAY auto-ignition enables ignition in two ways:

button-type ignition and lever-type rapid ignition

- It maintains a stable and clean flame

Size	180x80mm	Materials	ABS, Stainless steel, others
Weight	120g	Ignition	Piezoelectric automatic ignition
Purpose	Outdoor, Cooking	Fuel type	Liquefied butane

MANUAL TORCH

JB-501

It's simple, safe, and durable

- It maintains a stable and clean flame

Size	180x55mm	Materials	Stainless steel, others
Weight	65g	Ignition	Manual ignition
Purpose	Outdoor, Cooking	Fuel type	Liquefied butane

MINI GAS HEATER

JB-2000

It has a compact design and is strong in the wind, so it's good to use outdoors

- One normal butane gas can be used for up to 12 hours
- It is easy to ignite with piezoelectric automatic ignition
- It is safe and convenient with the installation of a flow path-blocking pressure sensor.

Size	230x181x183mm	Materials	Stainless steel, Iron, others
Weight	1.3kg	Ignition	Piezoelectric automatic ignition
Purpose	Outdoor	Fuel type	Liquefied butane

GAS HEATER

JB-901

The pilot ignition method makes it easy to ignite even in cold weather

- Mounting the aluminum heat conducting plate increases the vaporization power of the gas for efficient use
- When used for a long time, the overpressure prevention system operates to automatically separate the gas tank

Size	270x270x150mm	Materials	Stainless steel, Iron, others
Weight	1.8kg	Ignition	Piezoelectric automatic ignition
Purpose	Outdoor	Fuel type	Liquefied butane

TILTABLE GAS HEATER

JB-909

Tilt function allows you to adjust the angle and use it as a burner

- When used for a long time, the overpressure prevention system operates to automatically separate the gas tank

Size	300x270x160mm	Materials	Stainless steel, Iron, others
Weight	2.1kg	Ignition	Piezoelectric automatic ignition
Purpose	Outdoor	Fuel type	Liquefied butane

MINI STOVE

JB-150

It's an auxiliary heating device that you put on all burners and stoves and burn them

- It's easy to carry, so it's good to use as a simple stove with a burner
- Please refrain from moving while using it, and it is hot when moving, so make sure to cool it sufficiently before moving with a handlely separate the gas tank

Size	115x115x95mm	Materials	Stainless steel
Weight	180g	Purpose	Outdoor

JERA
OUTDOOR LEISURE BURNERS & CAMPING

Based on accumulated know-how and proprietary technology,
we will focus on producing superior products and developing
better products through continuous research.
